## What Does Math Class Look Like Today?

### The Importance of Talk

Math is a language. It is a way of thinking and communicating. It is a way of solving problems and understanding the world around us.

Math is not just about numbers and formulas. It is about understanding the relationships between numbers and objects. It is about using math to solve real-world problems.

### What does this look like in the classroom?

Math is a language. It is a way of thinking and communicating. It is a way of solving problems and understanding the world around us.

Math is not just about numbers and formulas. It is about understanding the relationships between numbers and objects. It is about using math to solve real-world problems.
